

**Business Development Companies (BDCs)** are closed-end investment companies that have elected to be regulated as such under the Investment Company Act of 1940. BDCs provide investors with access to managed investments in private equity and debt. Note that, unlike most closed-end funds covered elsewhere on this site, information on a BDC's net asset value per share is generally limited to disclosures contained in a company's quarterly (10-Qs) and annual reports (10-Ks).

BDCs may be publicly traded (listed or non-listed/over-the-counter) or non-traded. This site covers only publicly-traded BDCs that are listed or traded over-the-counter (OTC).
